Daily Fast-Selling Products Report — 2026-11-10

Marketplace: US (amazon.com) · **Season window:** Holiday peak (Black Friday Week 19–30 Nov) → New Year demand from 26 Dec · **Data confidence:** Medium (see note at the end)

1. Today in 30 seconds

- **Top pick: Dog enrichment (snuffle mats / puzzle feeders)**. Steady year-round demand, repeat buyers, light and cheap to ship, top sellers beatable on design.
- **Rising fast:** Accessories for new hot tech (AirTag 2nd Gen, AirPods Pro 3, Switch 2), K-beauty tools and masks, winter comfort (heated throws, space heaters), sleep and recovery products.
- **Avoid / cooling:** Generic phone chargers and cables (price war), and anything you can't get into FBA before mid-January if it's holiday-only (Christmas décor, gift sets).
- **Action for today:** Pick 2 niches from the table below and look at the top 10 listings on Amazon for each: write down their price, review count and the most common complaint in their 1–3 star reviews.

> ⏱️ **Timing reality:** a new seller who starts today will realistically have stock at FBA in **6–10 weeks (late January)**. So today's picks favour products that sell in **January–March** (New Year organisation, fitness, wellness, pets, Valentine's) rather than Christmas-only items.

4. Top pick deep-dive: dog snuffle mat / puzzle feeder

- **Product idea:** Machine-washable snuffle mat with **non-slip base and adjustable difficulty** (detachable pieces), sold as a size range (S/M/L) or bundled with a lick mat.

- **Unit economics (example at $29.99):**

Item	Amount
Sale price	$29.99
Referral fee (15%)	−$4.50
FBA fee (small standard / large standard, ~1 lb, estimate)	−$5.50
Landed cost (product + freight + duty, estimate)	−$6.50
Ads (~15% of sales)	−$4.50
Net profit / unit	**≈ $9.00 (≈ 30%)**

- **Differentiation angle:** Most low-cost mats shed fabric and slide on the floor. Lead with "won't slide, won't shred, goes in the washing machine", show a slow-motion video of a dog using it, and offer sizes for big dogs.
- **Validate before ordering:**
  1. Top 10 results for "snuffle mat for dogs": aim for a median under ~400 reviews.
  2. Read 1–3 star reviews of the top 5 and list the top 3 complaints; your product must fix them.
  3. Check search volume (Brand Analytics, Helium 10 or Jungle Scout): 3,000+ searches/month for the main keyword.
  4. Put the exact dimensions and weight into the Amazon Revenue Calculator.
- **Risks:** Low entry barrier means copycats; build a brand (A+ content, bundle, multiple sizes). Avoid copying patented designs.

5. Changes since yesterday

- First report. Tomorrow's report will show movement against this table.
